Planned Socialization Admitted

The drive to socialize the electric power resources of this nation does not consist of isolated and unrelated incidents. It is, instead, a national campaign—carefully planned and integrated. Every local campaign is part of the whole, as devastating as any foreign aggression plot to destroy democracies.

Any one can see that simply by looking at a map. In the Southeast, the TVA has an almost 100 per cent electric monopoly in whole states—and it is constantly enlarging its power-producing and distributing facilities. In the Midwest, such experiments as the Loup River project in Nebraska are doing their part to ruthlessly and needlessly destroy private ownership in one of the most essential and progressive industries in that state. In

California, Boulder Dam, Shasta Dam and other ventures are advancing the alien cause of socialism. Similar projects are doing the same in Oklahoma, Texas and other states. And in the Pacific Northwest, the drive toward total socialization of the electric power industry reaches its climax. Now pending in Congress is a Columbia River Power Authority bill which, if passed, would make all that area's power resources, privately-owned and municipally-owned alike, subject to czar-like control of a group of Washington politicians.

The public-power zealots used to say that such projects as the TVA and the rest were primarily for navigation, flood control and irrigation, and that power was only a by-product. Now that dishonest camouflage has been abandoned. Recently, a Federal power authority in South Carolina said, in a brief presented to the courts, that "the object of the named projects (Bonneville, TVA and Boulder), and of scores of others that have since been undertaken, was to socialize . . . the business of producing and distributing electric energy." There, in a sentence, is the truth at last.

Socialized electricity would mean that a Washington clique of politicians would have the power of life and death over the industries and communities of every state. It would mean that state and local rights would be destroyed.

MILLEBURN

The Rev. A. T. Rasmussen was an overnight guest at the Ralph McGuire home Saturday and was a dinner guest at the Eric Anderson home Sunday.

Lois Bonner spent the week-end with Miss Jean Bonner in Winnetka and attended the Music Festival Saturday evening.

Miss Doris Johnson returned to Elburn Saturday after a week at the J. S. Denman home. Miss Margaret Denman accompanied her to Elburn and remained until Monday evening.

Mrs. Charles Hoff of Camp Lake, Wis., spent Wednesday with her daughter, Mrs. Frank Hauser.

Mrs. E. H. Edwards returned home Monday after a two weeks' visit with her daughter, Mrs. John Dickey, in Forest Park.

Twenty-five young people of the Central Christian church in Waukegan held a going-away party and wiener roast Tuesday evening at the home of Betty and Dolores Shank. The party was honoring Aunty Jackson of Georgia, who left Thursday for his senior year at the Bible Seminary in Georgia.

Mrs. Walter Fontaine of Evanston spent Sunday at the home of her parents, Mr. and Mrs. Harley Clark.

Mr. and Mrs. James Forsythe of Chicago were recent callers at the Carl Anderson home.

Mr. and Mrs. Clarence Mair and daughter spent the week-end with their parents, Mr. and Mrs. James Mair in Chicago.

Mrs. Anna Bauman and daughter, Mildred, returned Sunday evening from a week's visit with Mr. and Mrs. William Ferry in Detroit, Mich.

The Couples Club enjoyed a beach party at Bartlett's beach Saturday evening.

Mrs. James Mair returned to her home in Chicago Friday, after a week's visit at the Carl Anderson home.

LAKE VILLA

On Sunday, Aug. 23, the service flag in honor of the young men in our community who are in the the armed forces of our country, will be dedicated at the worship service at 11 o'clock at the Community church and the parents, relatives and friends are especially invited to be present for this dedication.

The congregation enjoyed the special music last Sunday at the morning service. Mrs. Helen Carlson of Antioch sang the solo, "The Lord's Prayer" and Mrs. Bray accompanied her at the piano.

Corporal Norman Alwardt spent the past twelve days on a furlough with his parents east of town. He is stationed at Camp Livingston, La. During his stay here, his brother and wife, Mr. and Mrs. Sedwick Alwardt, gave a party in his honor, and his twin cousins, Elmer and Morse Fuller of Gurnee, shared in the party to celebrate their birthdays. It was a very happy occasion.

Mr. and Mrs. Carl Seeger left last Saturday to spend a week with their daughter, Elsa Bailey and family at Cleveland, Ohio.

Mr. and Mrs. Antioch, Mr. and Mrs. Amundsen and Drake Berg, all of Chicago, spent the end of the week with Mr. and Mrs. Paul Avery, Jr., and on Saturday evening, Mr. and Mrs. Paul Avery, Sr. and the Eugene Sheehan family of Antioch were their dinner guests.

Mr. and Mrs. Andrew McGlashan visited friends and relatives in Chicago on Sunday, and on Monday attended the funeral of their daughter-in-law's mother in Chicago.

Mr. and Mrs. Clayton Hamlin were in Waukegan Monday to attend the funeral of Mrs. Hamlin's grandmother, Mrs. Wilson.

Mrs. Stell Pedersen entertained her two brothers, Frank and Ed Mathis and families of Chicago last week Wednesday and they all enjoyed a picnic at Sherwood Park.

Mr. and Mrs. Carl Wallner are enjoying a two weeks' vacation at their cottage at Phillips, Wis.

Mrs. Emma Ames of Libertyville and Mrs. Cora Pickering of Chicago are spending the week with their sister, Mrs. G. P. Manzer.

Mr. and Mrs. L. J. Tweed visited the Bell family, who formerly lived at Monaville, last Sunday. Their son, Harold Bell, is now with the U. S. Army in California.

Mrs. Annie Webster, a former resident here, now living in the Eastern Star home at Rockford, Ill., and Mrs.

Dulcie Meyer of Lake Forest were callers in our village last week.

Cedar Lake 4-H Club girls held an achievement program at Cedar Lake school on Friday evening, Aug. 14, and 62 guests were present. The program opened with the singing of America; the pledge of allegiance to the flag and the 4-H Club pledge. Ruth Schonscheck and Louise Meinersmann gave a demonstration on how to turn a hem. Joanne Wolfgram gave a dramatic reading, "Woman's Wednesday." The girls then gave a demonstration on their health project, "First Aid" with Vivien Warren telling of the first aid kit. Marianne Paulson told of kinds of bandages, and Patty Warren acted as model for the two demonstrators. Idal Maier told of what to do in case of fire, and Louise Meinersmann followed with treatment of burns and Marianne Paulson told of dressing of burns and the spiral bandage. Idal Maier told of the spiral reverse bandage and Vivien Warren demonstrated the recurrent bandage. A playlet, "Our 4-H Gang," was given by all the girls of the club as they exhibited their garments. A prize was given to the girl who brought the most guests, and the leaders, Mrs. Roy Crichton and Mrs. D. Warren, awarded the prize to Vivien Warren.

Mrs. Betty Kanka of Oak Knoll subdivision, was taken to St. Therese hospital for surgery last week and is very ill. She has been given blood transfusions and her condition is very grave.

Mrs. Henry Christiansen and daughter, Mabel, of Highland Park, Duane Ehler and Hector Deding were dinner guests at the W. Wertz home on Sunday.

Mrs. Irving Overton was pleasantly surprised by the Carey branch of the family at a reunion and house warming in their new home at McHenry. The affair was attended by Misses Grace and Erminie Carey and Richard Carey and several relatives from Wisconsin.

Mr. and Mrs. Don Herrick and son Milton of Oak Park spent the weekend with their parents, Mr. and Mrs. Harry McDougal.

Mr. and Mrs. John R. West of Zion, Mrs. Laura Pastell and daughters Gloria Mae and Jayne of Winthrop Harbor and Mrs. Winsor Madden and daughter of Kenosha, spent the day Tuesday with Mr. and Mrs. Herbert Sarbacher. Mrs. Pastell and daughters remained to spend several days at the Sarbacher home.

Mrs. Ethel Dowell and daughter, Sylvia, Mrs. Ruby Buffon, Mrs. Carl Satterston, and the Misses Louise and Marie Koppisch were entertained recently at the home of Honorable and Catherine McGuire.

On Sunday the McGuirres entertained the following dinner guests: Mr. and Mrs. Wesley McGaghagan and daughter, Mary Lou, and Mr. and Mrs. Benjamin Hattendorf, all of Chicago.

Mrs. Harold Fouke entertained at her home in Bristol at a picnic dinner in honor of her sister, Student Nurse Joyce Newell, who will soon receive her cap at Michael Reese Hospital, Chicago. Those who attended were Mr. and Mrs. Ivan Newell, Mrs. Rose Newell, Mr. and Mrs. Carl Satterston and family, and Mr. and Mrs. Warren Behrens and family of Silver Lake.

Mr. and Mrs. William Elfers of Richmond spent Sunday evening with their daughter and family, Mr. and Mrs. Paul Voss.

Mrs. Wilson Cole spent Thursday and Friday at Harvard, visiting her niece and family, Mr. and Mrs. Frank Schell.

Mrs. Herbert Sarbacher returned from Madison on Tuesday evening, where she spent several days at the Genesee clinic.

Elmer Hahn, Kenosha, called on Herbert Sarbacher Wednesday. On Friday Edward Sarbacher and friend called at the H. Sarbacher home.

Mr. and Mrs. K. G. Mass and children of Burlington visited Mr. and Mrs. David Kimball.

Miss E. Kruckman, who has spent several weeks at her brother's home, returned to Kenosha Friday.

Mrs. George Dowell and her daughter, Sylvia, motored to Rockford on Thursday to spend two days with relatives.

Mr. and Mrs. David Kingbird accompanied by Mr. and Mrs. Fred Lent of Geneva City, recently took a trip to Merriman and visited the Dells.

Mrs. Herbert Sarbacher spent Thursday and Friday with her parents, Mr. and Mrs. John R. West, at Zion. On Friday Mrs. Sarbacher accompanied her parents to Kenosha to visit her sister and family, Mr. and Mrs. Winsor Madden.

Mr. and Mrs. N. Stone and Mrs. Ben Stone of Kenosha and Mrs. Paul and Mrs. B. Arentz of Chicago spent one day the latter part of the week at the home of Mr. and Mrs. John Blackman.

Mr. and Mrs. Ted Leiting and family of Milwaukee spent several days the past week at the home of her mother, Mrs. Charles Rasch.

Mrs. Harold Fouke and son of Bristol spent the day Thursday with her parents, Mr. and Mrs. Ivan Newell. In the afternoon they called on Mrs. Warren Behrens in Silver Lake.

The attendance at the benefit for the new St. John the Evangelist church, held at Twin Lakes, was reported as large and several from this vicinity attended and enjoyed the affair.

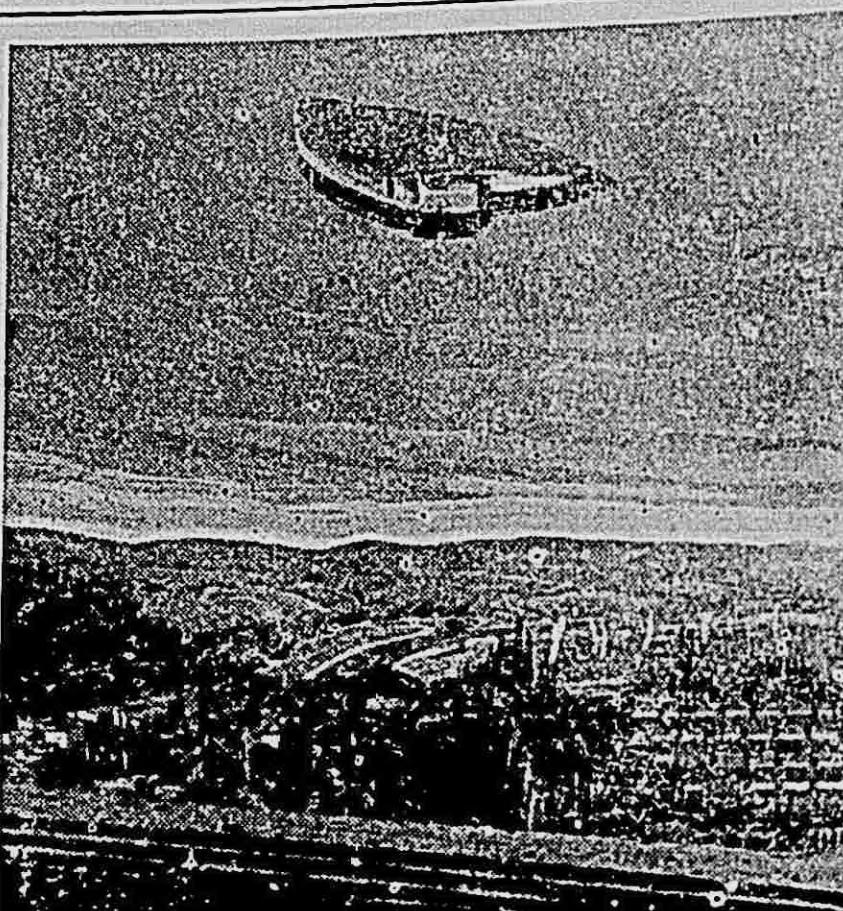

Visitors at the Herbert Sarbacher home on Sunday were Mr. and Mrs. Louis Janitsky, Kenosha; Mr. and Mrs.

Plane to Carry 80 Tons of War Material Planned

NEW YORK — Planes are steadily growing larger under the compulsion of war. Already they transport paratroopers, now called skyinfantry. One of the big aviation companies has developed and begun manufacture of a large plastic airplane for transporting freight as well as troops. Another aviation concern has plans for a huge 300 ton plane capable of carrying 80 tons of war material at speeds 25 to 30 times the rate of convoys ploughing the seven seas to distant theatres of war. Such a plane could make at least 25 round trips to one of an ocean freighter. Two of them would equal carrying capacity of an 8000 ton freighter and would cost not much more to build in less time with the marked advantage of quickly transporting troops or war supplies where vitally needed, free of submarine menace and danger of bombing while unloading at port of embarkation.

Commercial aviation has grown by leaps and bounds since the last war; particularly in past ten years. What can be expected of it after this war? On April 19th of this year Percy E. Bates, chairman of the Cunard Steamship Co., in a statement published in London, pointed out post-war possibilities of serious competition between airlines and trans-oceanic steamships for passengers. One of the foremost aeronautical engineers engaged in manufacture of wartime planes, Mr. Grover Loening, recently stated that airplanes must replace ocean-going vessels completely not only for passenger traffic but also for heavy freight. He predicted this would happen immediately after the war.

Jas E. McDevitt, an aviation engineer from the World War, has designed a monster airplane which is a flying wing with no wings; i.e., it is a flying wing ranging from 500 tons to 3000 tons weight and, if desirable, even larger. It is powered by 60,000 horsepower of high-octane gas motors, directly operating the propellers in large, wide funnels running full length of the plane. The air is sucked in at high speed through openings at front of flying wing and discharged at end of the funnels from rear of the plane. Some of the openings at front of flying wing can be seen in above picture. In addition

Picture above shows a 1500 ton plane having carrying capacity of 400 tons and capable of flying the stratosphere at 450 miles per hour for 21 hours without refueling.

to being 400 feet wide and 210 feet long above 1500 ton plane at any desired speed, or even hold it stationary in the air. In this respect McDevitt's flying wing will imitate the automobile. Not requiring expensive airfields with long runways it can proceed direct to any manufacturing plant, land at loading platform, take on its cargo; then fly direct to final destination and discharge its freight without need of railroad or motor truck for final delivery. For deluxe passenger service flying wing can fly between cities direct, loading and discharging passengers from overhead terminals in central locations of each city. Thus vertical ascent and descent of plane by means of sky-hooks will eliminate long jaunt from present airports to travelers' final destination, besides greatly increasing safety of air travel.

WILMOT

(Written for last week)

Jimmy Elwood spent the past two weeks with his grandparents, Mr. and Mrs. Harry McDougal, and his brother, Kenneth, was a guest of his paternal grandmother, Mrs. E. Elwood at Oak Park.

Mr. and Mrs. Clayton Lester and Mr. and Mrs. McLevy of Chicago, and Mr. and Mrs. Charles Albrecht of Burlington spent Sunday with Mr. and Mrs. R. C. Shotliff.

Sergt. Harley Shotliff flew to Chicago from Ellington Field, Texas, last Wednesday to spend Saturday and Sunday with his parents, Mr. and Mrs. R. C. Shotliff. He left on Sunday evening for Louisville, Ky., and upon his arrival was immediately transferred to Indianapolis, Ind.

Merlin Peterson has completed his summer term at the Wisconsin University and is visiting his parents, Mr. and Mrs. Wm. Wm. Peterson, this week.

Mr. and Mrs. Jules Kohl of Kenosha were Sunday guests at the William Wertz home.

Raymond Wertz left for Fort Sheridan on Thursday, to begin his training. Miss Nancy Marzahl of Fox River is spending this week at the home of her grandparents, Mr. and Mrs. Paul Voss.

Mr. and Mrs. William Elfers of Richmond spent Tuesday afternoon with their daughter, Mrs. Paul Voss.

Mr. and Mrs. Fred Hackett and Mr. and Mrs. Kutil, and daughter, June, of Oak Park and Antioch, spent Tuesday at the home of Mr. and Mrs. John Blackman.

Mr. and Mrs. Sidney Brush and daughters, Dorothy and Beryl, and son, Robert, of Elmhurst, Ill., Mr. and Mrs. J. E. Creisel, Mr. and Mrs. Kenneth Creisel and Grandma Creisel of Chicago, were dinner guests of Mrs. Edith Faulkner, Sunday. In the afternoon, Mrs. Faulkner accompanied her guests to Lake Geneva and Williams Bay to visit friends.

Mr. and Mrs. Wm. Wm. Peterson spent Saturday at the summer home of Mrs. Peterson's brother and family, Mr. and Mrs. Ray Kneeland, at Lake Geneva.

Mr. and Mrs. John Blackman entertained the following guests at their home on Sunday: Mr. and Mrs. Paul Miller, Mr. and Mrs. Mardus Truex and sons, Ronny and Bobby, of Kenosha, Mr. and Mrs. John Blackman, Jr., and Mrs. Arthur Laursen, Antioch, Mr. and Mrs. John Madison and son, Jack, and daughter, Nancy, William Bartell, Kenosha, Mr. and Mrs. Albert Chase of Channah Lake, and Mr. and Mrs. Fred Lent.

Mrs. Gene Holloway, daughter, Pat, and son, Jack, Jack Madison, Kenosha, is spending this week at the Blackman home.

Mrs. Frank Kamin and son, Robert, of West Allis called on Frank Rudolph Monday. Robert is staying to spend several days with his grandfather.

Mrs. Russell Elwood returned to her home from the Burlington hospital with her infant daughter, Jean Alice, Tuesdays.

Mr. and Mrs. James Carey and daughters of Twin Lakes and Miss Marguerite Cleary of Milwaukee were Wednesday dinner guests of the Misses Erminie and Grace Carey.

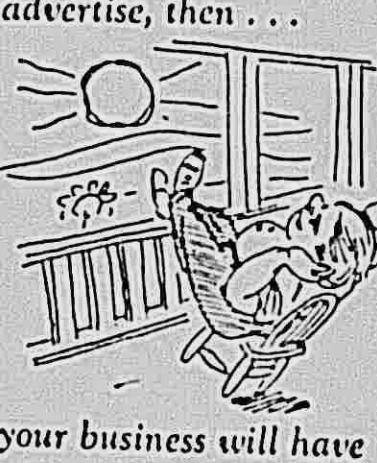

An executive meeting of the members of the Wimot Farm board will meet on Thursday evening at the school house.

Alarm's Alarm
Ringing exactly an hour before the time it was set an alarm clock woke a woman, her 11-year-old son and her sister in time to escape from a fire in their home at Sunderland, England.

Lady From Kansas
Miss Kathryn O'Loughlin is the first woman ever elected to United States congress from Kansas. She was in the legislature in Topeka in 1931.

Mosquito Boat
For every ten 30-foot cruisers that aren't being built this year our navy can have another mosquito boat.

IF each week you'll advertise, then . . .

your business will have sunny skies.

AUCTION

On Highway 43 on the Morley farm, located 2 miles west of Kenosha, 4 miles southeast of Somers, 2 miles north of Truesdale, on

Staurday, August 22

commencing at 1:00 o'clock

18 GUERNSEY CATTLE — T. B. and Bangs tested. 8 fresh, 1 close springer, balance milking good.

2 HORSES — Black gelding, 9 yrs. old, wt. 1600 lbs.; sorrel mare, 6 yrs. old, wt. 1500 lbs.

2 CHESTER WHITE BROOD SOWS, to farrow in September.

2 New De Laval single unit milking machines; pails, strainers; 6 8-gal. milk cans.

Rule of Billion People, Jap Aim

Chinese Find Map Showing Foe Planned to Enmesh Quarter of Globe.

WASHINGTON.—Japan's dream of a "Greater East Asia Co-Prosperity Sphere"—according to a map recently reported to have fallen into the hands of the Chinese government—would enmesh more than a billion people and dominate more than a quarter of the earth's surface, the National Geographic society computes.

As described in the Chungking dispatch, the map covered Russia's share of Sakhalin island, the Asia mainland to and including Iran in the south, and Siberia to the Urals in the north; the northern tip of Australia; and all the islands of the Southwest Pacific. Hawaii was stated to have been specifically omitted from the proposed Japanese-controlled sphere.

To bring such a chart to reality, the Japanese would have to establish domination over practically all the kinds of terrain the world offers, as well as most of the races of the human family, the society points out.

Greatly Varied Regions.

The regions concerned vary from the vast desert stretches of the "Dead Heart of Asia" to the humid jungles of British Malaya, from the Arctic wastes of the Siberian tundra and the lonely plateaus and peaks of Tibet's "Lost Horizon" land, to the busy oil-soaked flats of Iran. They contain some of the most fertile and the most desolate areas on earth; the highest mountains and the deepest seas; the wettest spots in the world, and some of the coldest and the hottest weather known to man.

In size, the individual territorial units marked for "Co-Prosperity" range from tiny coral islets to the vast reaches of Siberia, some 5,000,000 square miles in extent. The number of countries concerned (some of them already under the flag of the Rising Sun) read like a section from a gazetteer. Already overrun in part or in whole are Manchukuo, Inner Mongolia, China, French Indo-China, Thailand, British Malaya, the Philippines, the Netherlands Indies,

Burma, Borneo, New Guinea, and near-by smaller islands.

Designed for conquest are Siberia (with northern Sakhalin island), Outer Mongolia, Tibet, India, Afghanistan, Iran, northern Australia, and the main bulk of the southwestern Pacific islands.

Control 400,000,000 People.

In estimated round numbers, the Japanese so far have succeeded in bringing under their control some 400,000,000 people and more than 2,500,000 square miles of territory. These figures represent the completion of roughly a little less than two-fifths of the population involved and between one-sixth and one-seventh of the land area as reported mapped.

The races of Asia and the Pacific islands are more varied in type than those of any other major region, from the cameo-featured Hindu to the broad-faced Mongol; from the cream-colored, slant-eyed Eurasian to the woolly-haired black, with crude ornaments in his nose and ears. There are Tatars, Malays, Polynesians and Negritos; the Maoris of New Zealand, Dravidians of India, Kurds of Iran, Kalmucks of western China and Siberia, Papuans of New Guinea, the Singhalese of Ceylon, Annamites of French Indo-China, the Pathans, Turcomans and Tadiks of south-central Asia. There are the "fighting Igorots" of the Philippines and the fanned warlike tribes of Gurkhas in the wild, independent kingdom of Nepal, between northern India and Tibet.

These peoples speak hundreds of different languages and practice fantastically assorted religions and other customs of life and work.

Powerful Amplifier

So powerful it enables listeners to hear grass growing, a new radio amplifier has been perfected in Europe.

— V —

Bayonets

American troops are being equipped because of that radio-phonograph Mr. and Mrs. America didn't buy this year. The steel in an average radio-phonograph would make close to a dozen bayonets.

San Juan's Even Climate
The temperature in San Juan, Puerto Rico's capital, has never been above 94 degrees or below 62 degrees in the history of the United States weather bureau.

Brazilian Girl Explorer Sculps Jungle Killers

Intrepid Young Woman Goes Into Wilds to Secure Subjects for Art.

A woman with dark red hair walked softly in the jungle of Paraguay to kill a jaguar.

She saw a black spotted body touched by a flare of sunlight, lifted her rifle, fired—and missed. The lean cat sprang away, and a hunter beside her killed it with a single arrow. Vividly Miss Irene Hamar, 29 years old, native of Sao Paolo, Brazil, daughter of a Brazilian coffee planter, remembers now the powerful throb of the native hunter's bow, the arc of that arrow.

She remembers the moment when a hooked tarpon pulled her into the sea off Cuba, and the instant of teetering balance while she sped down a ski run on a Chilean mountain.

But—those aren't the most exciting moments of her life, she told Frank K. Kelly, Wise World writer.

The minutes which have set the deepest excitement in her throat have come, she declares, in the sudden emergence of living figures from hard cut stone, after days of struggle with a sculptor's hammer.

Exhibit Her Art.

Miss Hamar presented recently the first man exhibit.

Brazilian sculpture ever held in New York. She has 160 major works to her credit, many of them created in her studio overlooking the great harbor of Rio de Janeiro.

"I work 10, 12, or 14 hours a day there, for weeks and months," she murmurs. "How many hours, how long it takes, doesn't matter if I see something in the stone."

She has been engaged in sculpture for 17 years, beginning as a child by making plastic masques of the faces of the people she saw around her.

"It's a little like wrestling, a little like boxing with some one hidden from you," she believes. "I do not often make plastic models now. I attack the stone directly. I feel the dust in my face, I see something taking a form, coming alive for me. That is the best moment of all."

Miss Hamar studied in Paris and traveled through Europe several years in the middle 1930s, learned to speak French, English, Spanish, Italian and German in addition to her native Portuguese.

Likes Those Faces!

"The people everywhere have such fascinating faces," she says. "When I was a child, I couldn't help making masques of such wonderful expressions, such strange heads."

Although her exhibition included many portraits taken from people she has known, many of the figures were cut and hammered to fulfill the urges of her imagination, to give shape to what she felt was hidden in masses of white and rose marble, Brazilian alabaster, and bronze.

One of her favorites is a bronze figure of a woman with bowed head, called "vestal."

An Article of Distinction.

From the inevitable loneliness of an artist's studio, Miss Hamar turns often to the sea and to the swift thrill of skiing in Chile or Argentina. She holds medals for her skill as a ski runner and ski jumper, and she has caught huge tarpon in the Atlantic.

"Once I went out with some friends from Havana, and a tarpon pulled me right from the boat," she recalls. "As you say it—believe me, I let him go. It was not exactly what you would call an easy game of pingpong."

She has made trips up the Amazon river, visited the villages of the Bolivian Indians, and explored the vast jungle of the Matto Grosso plateau in Paraguay. It was in the jungle near this plateau that she went on foot with native hunters in search of jaguars.

Landlord's Registration Form

GENERAL INSTRUCTIONS

The landlord is required to register separately each rental dwelling unit, whether occupied or vacant. A dwelling unit is a room or a group of rooms for which a single rent is paid. Complete this Registration Statement in triplicate, remove carbons, and mail or bring the three copies to the Area Rent Office. Use extra sheets, in triplicate, for sections "D" & "E" if necessary. If the dwelling unit was not rented at any time during the period between January 1, 1942 and July 1, 1942, an application to establish the Maximum Legal Rent must be made on Form DD-112,2.

SECTION A. MAILING ADDRESS OF LANDLORD

1. Name of Landlord
2. Name of Agent
3. Address Mail to:

SECTION B. MAILING ADDRESS OF TENANT

Name _____
Address _____
City and State _____

SECTION C. MAXIMUM LEGAL RENT

Read carefully and fill in every item which applies to this dwelling unit.

1. Rent on March 1, 1942: \$ _____ per week () per month ()
2. Not rented on March 1, 1942, but rented at any time between January 1, 1942 and February 28, 1942. Date last rented during that two-month period: _____, 1942. Rent on that date: \$ _____ per week () per month ()
3. Not rented at any time between January 1, 1942 and March 1, 1942, but rented before July 1, 1942. Check one box:
(a) Owner occupied or vacant between January 1, 1942 and March 1, 1942.
(b) Newly constructed without priority rating.
(c) Newly constructed with priority rating. (If checked, item 6 must also be filled in.) Date first rented after March 1, 1942: _____, 1942. Rent on that date: \$ _____ per week () per month ()
4. Dwelling unit made available by a change which resulted in an increase or decrease in the number of dwelling units after March 1, 1942, but before July 1, 1942. Date first rented after such change: _____, 1942. Rent on that date: \$ _____ per week () per month ()
5. Substantially changed after March 1, 1942, but before July 1, 1942. Check one box:
(a) From unfurnished to fully furnished.
(b) From fully furnished to unfurnished.
(c) By a MAJOR CAPITAL IMPROVEMENT as distinguished from ordinary repair, replacement and maintenance. Date first rented after such change: _____, 1942. Rent on that date: \$ _____ per week () per month ()
6. Dwelling unit newly constructed with a priority rating from the United States or any agency thereof. Rent approved by agency granting priority: \$ _____ per week () per month ()
7. THE MAXIMUM LEGAL RENT FOR THIS DWELLING UNIT IS: \$ _____ per week () per month ()

Enter Maximum Legal Rent in accordance with the following instructions:
(a) If only one of the above items applies to this dwelling unit the Maximum Legal Rent is the rent entered for that item.
(b) If more than one of the above items apply to this dwelling unit the Maximum Legal Rent is the rent reported for the most recent date, except in the case of item 6.
(c) If item 6 applies to this dwelling unit the Maximum Legal Rent is the lower of the two rents entered in Item 3 and Item 6.
*Note: If you check the items 3(a), 3(b) or 5(a) to this dwelling unit you must fill in the information required in Section "E". The Administrator may at any time decrease in the Maximum Legal Rent determined under items 3(a), 3(b), 4, or 5, on the grounds that the rent is higher than the rent generally prevailing for comparable housing accommodations on March 1, 1942.

Section E - See Note Section C. 7*

If Item 3(b), 4 or 5 of Section C was filled in, set forth in specific detail the type and cost of:
(a) New construction
(b) A change in the number of dwelling units
(c) A change from unfurnished to fully furnished
(d) A major capital improvement

SECTION D. EQUIPMENT AND SERVICES INCLUDED IN THE RENT ON MARCH 1, 1942

If any one of the items 2 to 5 of Section C apply to this dwelling unit check Equipment and Services included in the rent on the most recent date you entered in Section C.1.

1. EQUIPMENT Yes No
Furniture () ()
Running Water () ()
Hot Water () ()
Flush Toilet () ()
Bathroom () ()
Central Heating () ()
Heating Stove () ()
Mech. Refrigerator () ()
Electricity Installed () ()
Cooking Stove () ()
If any equipment is shared, explain below:

2. SERVICES Yes No
Garage () ()
Heat or Heating Fuel () ()
Cooking Fuel () ()
Cold Water () ()
Hot Water () ()
Light () ()
Ice or Refrigeration () ()
Janitor Service () ()
Garbage Disposal () ()
Painting & Decorating () ()
Interior Repairs () ()
Exterior Repairs () ()
List any other services:

Are all equipment and services indicated above now included in the rent? Yes () No ()

WARNING
The rent for this dwelling unit on and after July 1, 1942 can not be less than the Maximum Legal Rent entered in Section C.1. A false statement on this form or an evasion or attempted evasion of the Maximum Legal Rent Regulation may subject you to a \$5,000 fine or imprisonment for one year.

I HEREBY REPRESENT that all statements and entries given herein are true and correct.

(Signature of Landlord or his Agent)

9. Forms may be signed by the landlord or his agent. It is not necessary to have the form notarized.

10. If the rent on a dwelling unit has been fixed by the rent director, leave blank items 1 to 6 in section C, and enter the rent ordered in item 7. The following wording should be entered in the blank space in section E.

"The maximum legal rent has been fixed pursuant to an order of the area rent director. Entered _____ day of _____".

11. Sign the statement, examine it to make sure all three copies are readable, remove the carbons and mail all three copies to the Chicago area rent office, 222 W. Adams St. Do not fold the form.

12. After the registration statement has been examined and verified by the tenant, the landlord's copy will be returned. It must be produced on demand of any new tenant.

Makes Cookies for
Boys in Service

The Antioch Unit of the Home Bureau made 183 dozen cookies for the boys in service who drop in at the Waukegan U. S. O. building on Sheridan road.

Mrs. Eugene McDougall, Mrs. George White and Mrs. Curtis Wells attended the annual home bureau garden party, August 6, at the Hawthorn Farm. Mrs. White and Mrs. Wells sang with the county chorus.

Mrs. McDougall is entertaining the unit at her home on Fox river, Aug. 26. It is to be a picnic meeting. The September meeting will be held at the home of Mrs. Curtis Wells on Route 173.

JOHANNA A. THOMPSON
CLUB ELECTS OFFICERS

Election of officers for the ensuing year for the Johanna A. Thompson Club of Northern Illinois followed a pot-luck luncheon Sunday at the Lake Forest Masonic temple at 6:30 o'clock.

Chosen as president was Mrs. Lillian Robinson, past matron and grand instructress, of Lake Forest. Other officers elected were: 1st vice president—Verna McClure, past matron and grand instructress, of Waukegan; 2nd vice president—Marie Snyder, past matron of Highland chapter, Highland Park; 3rd vice president—Adah Hachmeister, worthy matron, Antioch chapter; secretary—Blanche Mitchell, past matron, Libertyville chapter; treasurer—Floyd Mathews, past patron, Libertyville chapter; chaplain—Genevieve Austin, associate matron, North Chicago chapter.

The next meeting of the club will be held at the Thompson cottage at Wonder Lake. There will be a pot-luck supper and everyone is invited.

* * *

GUILD SOCIETY SPONSORS
CARD PARTY AND LUNCHEON

The Ladies' Guild society of St. Ignatius' church will hold a card party and dessert luncheon at the church hall on Wednesday, August 26, at 1:30 o'clock. There will be bridge, 500 and pinochle, and the admission will be 40 cents with 4 cents federal tax.

* * *

Card of Thanks
We wish to thank all those who assisted us during our recent bereavement.

Mrs. Nels A. Nielsen
and family.

CHRISTIAN SCIENCE CHURCHES

"Soul" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 16.

The Golden Text was, "My soul shall be joyful in the Lord; it shall rejoice in his salvation" (Psalms 35: 9).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "If ye walk in my statutes, and keep my commandments, and do them: Then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit: And I will walk among you, and will be your God, and ye shall be my people" (Lev. 26: 3, 4, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Nothing but Spirit, Soul, can evolve Life, for Spirit is more than all else. Because Soul is immortal, it does not exist in mortality. Soul must be incorporeal to be Spirit, for Spirit is not finite. Only by losing the false sense of Soul can we gain the eternal unfolding of Life as immortality brought to light" (p. 335).

Furs for the Fair Sex

Some 30,000 muskrats which will eventually grace the shoulders of American and Canadian women, are being trapped this spring by Indians on the Two Island preserve near The Pas, Manitoba. The Two Islands muskrat harvest is being shared by 160 Indian and non-Indian trappers who for three weeks work should receive an average of \$20 per month for the ensuing 12 months. The preserve of 160,000 acres has an estimated 60,000 muskrat population.

— V —

Tropical Tree

Palms line the glistening coral beach at Nassau, and when the northern lands are shivering in the grip of snow and sleet, the Bahamas are like a veritable tropical paradise. At Nassau, the capital, the water is warm and unbelievably blue, so that the sand looks white and the palm trees greener by contrast. The beaches are ideal, sheltered as they are by the jutting coral reefs that surround the island.

— V —

Simple Arithmetic

The circumference of a circle is found by multiplying the diameter by 3.1416. To find the diameter of a circle, multiply the circumference by .31416. For the area of a circle, square the diameter and multiply by .7854.

Horton Family Holds
Tenth Annual Reunion

Mrs. Jack Dunning and son, David, and Miss Melanie Jenin of Chicago, were guests Wednesday in the home of Mrs. Dunning's parents, Mr. and Mrs. Simon Simonsen. Also a guest in the Simonsen home during the past week was their older daughter, Mrs. Eric Ankarburg and son, Edward, of Chicago.

U. S. '41 Birth Rate

Highest in History

— V —

Record 2,500,000 Figure Due

To War Conditions.

WASHINGTON.—War conditions resulted in 1941 in the largest recorded birth rate in the history of the United States. Miss Katharine Lenroot, chief of the children's bureau of the department of labor, reported to congress.

Nearly 2,500,000 births were recorded last year, 140,000 more than in 1940, Miss Lenroot reported. She estimated that the birth rate "will increase very materially in the next year or two."

"In every war period," she said, "there is a great tendency toward early marriages and an increased birth rate, and that is true at this period."

Miss Lenroot appealed to the congress and to the country to consider health problems. She gave the following illustrations of the situation existing in certain defense areas:

In Oklahoma it is reported that a power plant now being built in a community of 500 will employ from 6,000 to 10,000 workers. In the whole area there is only one physician, who is 75 years old, and there are no hospital facilities. In South Carolina a community of 2,000 with five doctors reports that three of them have gone into military service leaving only two elderly physicians who have virtually retired from practice.

There are 483 counties, or about one-sixth of all the counties in the United States, which have defense areas. As of last July, 89 of those counties had no public health nursing services; 234 had no prenatal clinics and 193 had no child health conferences.

See Quinine Substitute

In 'Georgia Bark' Shrub

ALBANY, GA.—A substitute for quinine may be found in an American shrub known as Georgia bark.

Dr. James C. Andrews of the department of biological chemistry of the University of North Carolina's school of medicine, has been experimenting with the medicinal properties of the plant.

Other scientists also are studying Georgia bark, known botanically as *Pinckneya pubescens*, and orders for as much as 100 pounds have been received by the department of agriculture. The bush, now in full bloom of pink and green, grows best in the damp wooded places between here and the Florida line.

THOUGHT FOR THE WEEK
Contributed by the Baha'i Group
JUSTICE

"Justice is not limited; it is a universal quality. Its operation must be carried out in all classes, from the highest to the lowest. Justice must be sacred and the rights of all the people considered. Desire for others only that which you desire for yourselves; then shall we rejoice in the Sun of Justice which shines from the horizon of God."

— V —

"Each man has been placed in a post of honor which he must not desert. An humble workman who commits an injustice is as much to blame as a renowned tyrant. Thus we all have our choice between justice and injustice."

— V —

"When perfect justice reigns in every country of the Eastern and Western world, then will the earth become a place of beauty. The dignity and equality of every servant of God will be acknowledged; the ideal of the solidarity of the human race, the true brotherhood of man, will be realized, and the glorious Light of the Sun of Truth will illuminate the souls of all men."

— V —

"Abdu'l-Baha.

— V —

We wish to take this opportunity to thank you for the wonderful assistance rendered us in making our Victory Carnival of Aug. 13, 1942, a success beyond our fondest dreams—thereby making it possible for us to help the Red Cross and the Army and Navy Relief to the amount of six hundred dollars or more. We also wish to thank through your paper, the many hundreds of patriotic people who contributed and attended our Carnival."

Farm Building Must Have Board's Permit

WPB Recognizes Need of Limited Construction

County war boards of the United States department of agriculture will co-operate with the War Production board in handling applications for authorization to begin construction work on farms, the War Production board announced.

The United States department of agriculture is co-operating with the WPB in formulating policies under which county and state U. S. D. A. war boards will make recommendations covering farm residential and agricultural construction. Projects recommended by these boards will be forwarded to the War Production board for final approval.

Order L-41, issued by the War Production board, prohibits the start of unauthorized construction projects which use materials, labor and construction equipment needed in

the war effort, and places all new publicly and privately financed construction under rigid control.

The War Production board recognizes that a limited amount of construction by farmers is necessary to maintain and increase production to meet agricultural goals and that certain off-the-farm facilities are also needed for the production, handling and processing of farm products.

A farmer planning to begin construction which needs authorization should consult his county United States department of agriculture war board.

All farm projects, including residential, agricultural, and off-the-farm construction, such as warehouses, processing plants, creameries, etc., will be considered first by the United States department of agriculture county war boards. Applications for projects recommended by these boards will be sent to state war boards and then to the department of agriculture.

The department will consider the recommendations and send to the War Production board for final approval those which are deemed essential.

So far as residential construction is concerned, farm dwellings are covered by the same regulations as other residential construction. If farm residential construction, during any 12-month period, costs less than \$500 per farm, no authorization is necessary. Likewise no authorization is required for construction begun prior to April 9, 1942; for maintenance and repairs; or for reconstruction or restoration of farm residential construction damaged or destroyed after December 31, 1941, by fire, flood, tornado, earthquake, act of God or by public enemy.

Take Care of Your Milking Machine as Parts Are Hard to Get

The milking machine is essential to wartime agricultural production, and must be cared for properly because shortages of rubber and metal will not permit normal replacement.

The following rules for the care of rubber milking machine parts are suggested:

Use two separate sets of liners, alternating them each week. Rubber needs "rest."

Keep liners tight in teat-cup shells.

Keep milker rubber parts clean and free from all butterfat, which causes deterioration.

Rubber cuts easily when wet. Use care in assembly and disassembly of units.

Do not use chlorine solutions of a strength exceeding 250 parts per million, for excessively strong chlorine solutions will injure rubber.

If lye is used in the care of rubber parts, be sure that it does not remain in contact with the metal parts.

Battling Soil Erosion

Legume crops such as alfalfa, clover, soybeans and lespedeza are being used with increasing success as "heavy artillery" in fighting the battle of soil erosion. Legumes keep the topsoil in place, deposit nitrogen in soil and provide it with needed supplies of organic matter. To do their best work, legumes should be reinforced by intelligent soil management such as the use of fertilizers high in phosphorus and potash.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for September 20

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JUDAH: AN EXAMPLE OF SELF-SACRIFICE

LESSON TEXT—Genesis 44:18-34. GOLDEN TEXT—"Humbley perceive we the love of God, because he has given down his life for us; and we ought to lay down our lives for the brethren."—1 John 3:16.

The family is still the fundamental unit of society, and is therefore of more importance than the church, the state, or the social order, of which it is a vital part. Every force which encourages the breakdown of the sacred relationships of the home and family is set for the destruction of society itself.

Men have too often chosen to go the way of the flesh, and therefore they have disregarded God's plan and purpose. But marriage is just as sacred as ever in His sight; the home is to be kept for Him; and brotherly love still finds a high place among the virtues of real men.

Today's lesson is a continuation of the story of Joseph's life. As we study it we must bear in mind Joseph's dealings with his brethren, who as yet did not recognize him as the one they had sold into captivity. He was bringing them kindly but definitely to the point of real repentance, so that he could show himself gracious to them.

To do so he had brought disaster upon them. Being happily on their way homeward with a new supply of food, they were overtaken and proved to be thieves, and Benjamin, the beloved of their father Jacob, stood condemned by their own words, to death.

In that crisis the mouths of the others seemed closed, but Judah, who had really saved Joseph's life (Gen. 37:26, 27) and who had apparently come to himself as a man of essential goodness, pleaded for Benjamin's life. That plea presented a truly sacrificial brotherly love, as he manifested

I. Courage (v. 18). Easy rests the yoke of family life as long as all is joyful and prosperous. But when adversity strikes, when sorrow comes, or sickness, or sin, then the true test of devotion is at hand.

It was a brave and manly thing for Judah to stand before the one whom he knew only as the man who was "even as Pharaoh." The circumstances were all against him. He expected the flaming anger of the offended ruler. His brethren had collapsed in despair. It was one of those dark hours which come to every family when someone must demonstrate true love by being strong-hearted and steady.

II. Intelligence (vv. 19-29).

Crises call for more than a cheerful smile or an encouraging word, much as they may mean in such an hour. We must be prepared by our close contact with our loved ones to speak and act with vigor and assurance.

Judah's plea is a masterpiece of argumentation and appeal, demonstrating that he was not only well-informed about his family and its problems, but ready to use his knowledge skillfully and effectively.

III. Self-Denial (vv. 30-33).

One step deeper goes the devotion of this man to his father and his brother. He had done no wrong that merited punishment, but evidently his brother Benjamin had been guilty. Had he been of the spirit of Cain he would have said, "Am I my brother's keeper?" and let him answer for himself. Why should Judah suffer for another? Why should he allow himself to be imprisoned in a strange land to save his father from sorrow and his brother from what seemed to be the just reward for his deeds?

Thus reasons the man of the world, but such is not the language of the true brother, who says, "Let thy servant abide instead of the lad as a bondman."

IV. Love (v. 34).

Love for father and brother underlies all of the courage, conviction and self-sacrifice of a man like Judah. In his younger years, and possibly under the influence of his brothers, he had failed in that respect, but now his real devotion to his brother was evident.

That affection was a real, powerful, and beautiful thing, and yet it is but a faint prefiguring of the affection of the One who "stickeith closer than a brother" who "though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich" (Prov. 18: 24; II Cor. 8:9).

Let us improve the opportunity to review our relations with our own family, to determine whether there is aught that we in intelligent and courageous self-sacrifice should do for our own.

Know Your Neighbors
Know your neighbors. Call on them to meet together, in your home to exchange information. This friendly association, this neighborliness, will exalt courage and confidence—the morale so necessary for victory.

News of the Boys in Service

Jennrich a Sergeant

For his outstanding work in Battery "B," 340th Field Artillery Battalion, Camp Carson, Colo., Sergeant Wilfred F. Jennrich, son of Mr. and Mrs. Emil Jennrich of Antioch, was promoted to Staff Sergeant by his commanding officer on August 10.

Oldsters Are Able and Willing to Work, State Survey Shows

A recent survey of Illinois old age assistance rolls and case histories found eighteen hundred men under the age of 75 who are able and willing to work. More than one-third of them have a background of agricultural experience as farm owners, tenants or hired men. The others were skilled or semi-skilled laborers. Efforts are being made to find suitable work for these men.

This action has been ordered by Governor Dwight H. Green to conserve tires and equipment and reduce expenses. The state has been unable to purchase new tires since last December, and its reserve stock of tires is very low.

Jack Daly, Former Deputy Sheriff, Dies Thursday in Waukegan

John E. (Jack) Daly, 50, former state policeman and deputy sheriff, died Thursday afternoon in Victory Memorial hospital in Waukegan. His death was attributed to an injury suffered several years ago, at which time he underwent an operation following an accident while on his motorcycle.

For the past several years he had been an automobile salesman. During the late twenties he was a state highway policeman, and later was deputy sheriff of Lake county, working out of the state's attorney's office as an investigator. At one time he operated a farm in western Lake county and was well known in this community.

He leaves his widow, Ada, a daughter, Jean, and a son, Arthur.

V—

Take Third of State Cars Off the Highways

Within the next few weeks at least one-third of the passenger cars and ten per cent of the trucks ordinarily operated by the state of Illinois will be taken off the highways and put in storage. Their tires will be removed and held in reserve for future use by departments of law enforcement, fire protection, public health, safety and highway maintenance.

This action has been ordered by Governor Dwight H. Green to conserve tires and equipment and reduce expenses. The state has been unable to purchase new tires since last December, and its reserve stock of tires is very low.

V—

Infantile Paralysis Reported

The State Board of Public Health reports several cases of infantile paralysis in the state, with one in Antioch, Ronnie King, son of Mr. and Mrs. Robert King, who has been placed in the isolation ward at St. Therese hospital, Waukegan.

V—

Long May It Wave!

The tattered but proud "Old Glory" which waves each day atop the flagpole in Tower park has been the subject of comment during the past few weeks. May think a new flag should replace it. Well, Antioch has a new flag, but it is used only on Sundays and holidays, according to Marshal Bill Thieman. The new flag was presented to the village some weeks ago by Morris Pickus.

V—

Speaking of the want-ads—many

carry interesting stories behind them. Eugene Cox, long a resident and business man of Channah Lake, this week offers his popular place known as Cox's Corners for lease. Originally his store was located on the old Channah Lake road down near the lake, where he catered to vacationists and supplied the community with groceries. When highway 173 was paved he moved to the present location and installed a bar when the prohibition era ended in 1933. Gene confesses to the age of 74, or almost, and says he wants to take it easy now. He should. Incidentally, Gene has done well in his business, and it's a fine spot for some ambitious person who will attend to the business as well as Gene has these many years.

WEEKLY NEWS ANALYSIS

Japs' Asiatic Time-Table Delayed by U. S. Offensive in Southwest Pacific; Yank Air Force Now Active in Europe; Russians Continue Caucasus Retreat(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)
Released by Western Newspaper Union.**SOLOMON ISLANDS: Marines Landed**

The marines had landed. The Japanese Solomon Islands northeast of Australia were the site. After seven days of savage fighting, the marines were reported consolidating their positions on three key islands—Tulagi, Florida and Guadalcanal. Key prize on Tulagi, aside from its

**VICE ADMIRAL GHORMLEY**
He unleashed Devil Dogs.

harbor, was an airdrome in the mountains, said to be the best in that war sector.

The effectiveness of the entire offensive was indicated by a communiqué from General MacArthur's headquarters in Australia which reported that the marines had captured a Japanese airfield on Guadalcanal island.

Intent on India and massing strength along the Siberian frontier, the Japanese command did not like the idea of an American offensive in the Solomons. An offensive it was, however, with the intent of regaining lost territory, cutting a wedge into Japanese supply lines and carrying the fight to the far corners of India.

The marines were only a part of the attacking task force under command of Vice Admiral Robert L. Ghormley. They performed the necessary landing and cross-country fighting operations. But back of them was stout naval power and strong air forces which gave the Yankees a superiority the Japs had hitherto held.

U. S. AIR FORCE:**Active in Europe**

The long-awaited entry of American fighting planes on a large scale into the European air war took place when U. S. fighting craft engaged in 31 operational sorties.

This baptism was regarded as a forerunner of the time when the sky above Germany would be filled with destruction-laden American planes.

In the initial operations, United States fighter squadrons flying in conjunction with Royal Air Force units made three flights over the French coast. Twenty other aerial missions were over the sea and eight were interception sorties off the coast of England, according to a communiqué of the United States European headquarters.

Meanwhile the RAF's assaults on German industrial centers continued with another blistering attack on Mainz in which high explosives and incendiaries were again rained down. The effectiveness of the British air blitz was attested by Dr. Joseph Goebbels, German minister of propaganda, who admitted that Germany is suffering "painful wounds" from the RAF's summer offensive in an article for "Das Reich."

NAVY:**Policy Board Reshaped**

Two sea dogs grown gray in their country's service were added to the navy general board, when Secretary Frank Knox announced a reorganization of the committee. They were Admiral Arthur J. Hepburn, retired, who was named chairman of the board, and Admiral Thomas C. Hart, retired, former commander-in-chief of the Asiatic fleet.

The board's functions are to advise the secretary on matters of policy. The navy said the board's duties and responsibilities had greatly increased since America's entry into the war and that the reorganization brought to the board officers well qualified to deal with vital problems arising out of the war.

FARM INCOME:**Ahead of HICL**

Increases in farm income have thus far been able to outrun rises in the cost of living, it was disclosed in a department of agriculture survey which showed that while net income of farm families averaged 46 per cent higher in 1941 and in the first three months of 1942 than in the comparable period in 1935-36, living costs had increased approximately one-third. Thus income outstripped the rise in living costs.

RUSSIA: Cossacks No Barrier

The emphasis which Russian communiques placed on "saber-bearing Cossacks" suggested that the Red forces in the Caucasus lacked the heavy tank and armored equipment with which Nazi advances had previously been repelled.

The appearance of new geographic names in the communiques—Cherkess, Kotelnikovski, Krasnodor and Maikop—indicated the rapidity with which the German steamroller had been able to flatten out Russian resistance and move on to new objectives.

There was no doubt that Russia needed a second front and knew it.

A Soviet communiqué acknowledged that one swift thrust had brought the Nazis to Mineralnye Vody, only 140 miles as the crow flies from the oil wells of Grozny.

But things were not completely hopeless. While the Germans had seized some oil in the Maikop area of the Caucasus, the big prize was still out of their reach. Between them and Baku rose the barrier of the Caucasus mountains. Moreover, Marshal Timoshenko's forces were contesting every mile of advance stubbornly.

In an area north of the Caucasus the Russian position was grave, for Stalingrad, industrial city of the Volga, was menaced by a Nazi pincer movement from the Kletskaya area on the north and the Kotelnikovski sector in the south.

INDIA: Gandhi Spins

As Mohandas K. Gandhi worked at his spinning wheel in his sumptuous prison in the Aga Khan's palace, the harvest of his passive resistance campaign against the British was a series of bloody riots that spread to the far corners of India.

Madras, heart of India's war industries, populous Bombay, Wardha in the central provinces and Madura in the far south had been the scenes of outbreaks, despite official threats of death and flogging for all who took part in the revolution. That the British had the situation well in hand was indicated by the fact that the disorders were sporadic and confined to big cities, whereas the countryside was virtually unaffected.

Meanwhile in Washington, the state department made it clear that American military forces in India had been ordered to "exercise scrupulous care to avoid the slightest participation in India's internal political problems." A statement explained that "The sole purpose of the American forces in India is to prosecute war of the United Nations against the Axis powers."

PRIMARIES: Triumphant Fish

As political wiseacres examined the results of primary elections in five states, one conclusion emerged. Isolationism was apparently fading

**HAMILTON FISH**
... prewar issues were sunk.

out of the picture as a prime political issue.

Outstanding example of this trend was the result in President Roosevelt's home bailiwick, Dutchess County, New York, where Congressman Hamilton Fish, prewar critic of the President's foreign policy, won renomination by a three-to-one ratio. Informed of his success, Fish said: "Prewar issues were sunk at Pearl Harbor."

While results appeared contradictory in other states, the trend seemed to be running in this direction. Although Democratic voters defeated two prewar opponents of the administration's foreign policy in other states, these defeats were attributed by most observers to local dissatisfaction rather than emphasis on national issues. The defeated candidates in this case were Representatives Martin Sweeney of Ohio and Harry B. Coffee of Nebraska. Both were veterans in point of service in the House.

ALEUTIANS: Japs Pay Dearly

Japan was paying a high price for the occupation of three western Aleutian islands. That was evident when a navy communiqué disclosed that 21 Jap ships had been sunk or damaged, an undetermined number of airplanes lost and important shore installations had been blasted since the invasion was first undertaken.

Latest exploit was a surprise attack on an American task force on Kiska harbor. Caught unawares, the Japs replied to the first American shells with anti-aircraft fire. In the raid, the navy said, shore batteries were silenced by cruisers and destroyers, fires started in the enemy camp area, a cargo ship apparently sunk and "the only resistance encountered was from aircraft."

Kiska is the Japs' main base in the Aleutians, although the Japanese have also occupied Attu and Agattu, at the tip of the island chain.

WAR SITUATION: Realism Required

Examining the war situation with cold realism, Senator Millard E. Tydings, ranking majority member of the senate naval affairs committee, warned that a United Nations victory cannot be expected before 1944 at the earliest. And, added the Maryland senator, the sooner the American people realize what lies ahead, the better off the United States will be.

"It ought to be perfectly obvious to any one that, barring some wholly unforeseen and unpredictable event," he said, in a radio broadcast, "there is not a chance for this war ending in 1942, and little chance for it to end before 1944 at the earliest, unless, of course, the United Nations are willing to submit to a Hitler-dictated peace."

Senator Tydings said it is useless to hope for a revolt of the German people against the Nazi.

"It is well to remember that the German people, whether Nazi or

SENATOR TYDINGS
... 1944 at the earliest.

non-Nazi, have been winning almost constantly ever since the war started. The sooner we realize the grimness and gigantic size of the task ahead, the sooner we will have a complete comprehension of the great demands needed in blood and treasure."

DOCTORS: Getting Scarcer

Mounting needs for doctors in the armed services will make necessary a speeding up of medical training and an expansion of their practice by physicians remaining in civilian life.

This was made evident when statistics released in Washington showed that the country has 60,000 doctors, whereas needs for military and civilian functions will require 140,000 physicians. As a result of this situation, selective service headquarters said local boards had already begun to reclassify physicians who can be spared from civilian service.

For every 1,000,000 men in the army, approximately 6,000 doctors are required. The navy's needs are 6,500 physicians to every 1,000,000 men. President Roosevelt's recent statement that 4,000,000 men are already under arms indicates that 24,000 doctors are ticketed for military service. The army recently declared it will need 20,000 more by the end of the year.

MISCELLANY

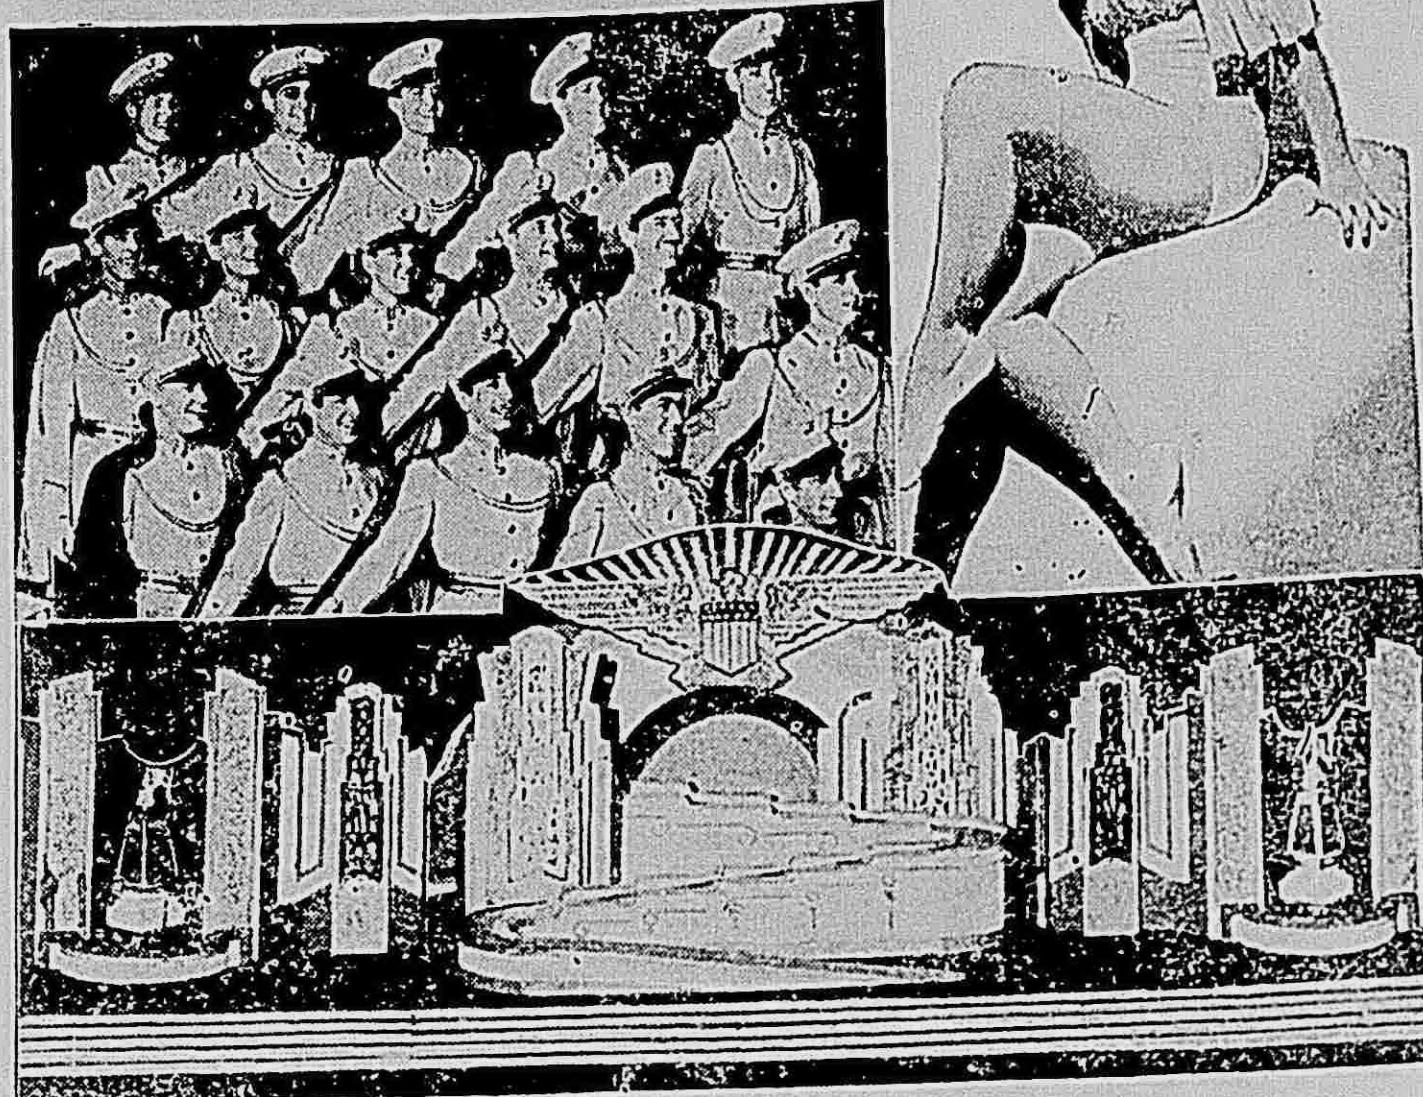

LONDON: Soil that had not been cultivated for almost 2,000 years has been reclaimed for wartime food production in Britain, Lord Woolton, food minister, announced. This land, which is producing oats, wheat and potatoes, has not been in crop since the days the Romans moved through the district.

WASHINGTON: Senator Henry Cabot Lodge Jr. suggested that gasoline rations for politicians be cut so that traveling salesmen in eastern states could have more motor fuel. Lodge asserted that the recent gasoline rationing order deprived salesmen of adequate gasoline and was "destroying their livelihood."

MEXICO CITY: The Mexican government gave the screen actor, Ramon Novarro, permission to enlist in the United States army without losing his Mexican citizenship, it was announced here.

A Tribute to Our Allies

"ON TO VICTORY" . . . America's greatest outdoor show will this year pay tribute to our allies in a spectacular extravaganza featuring stars of stage, screen and radio on a stage 200 feet long and 30 feet wide at the Wisconsin STATE FAIR . . . August 22-28.

**Vegetable Insect Control****Is Not a Difficult Task**

Follow a few simple rules and control of vegetable insects is not difficult.

A duster may be obtained for a dollar up, but one may be made at home with a tin can, a stick and a piece of cheese cloth.

Ask the county extension agents how it's done. Next, have ready a supply of insecticides for use at the first sign of insect injury. These are cryolite for control of bean beetles, cucumber beetles, cabbage worms and other insects which feed upon the fruit and foliage of the plants; rotenone and sulphur to control tomato fruit worm, flea beetles, plant lice and leaf hoppers; and concentrated pyrethrum dust for squash bugs, stink bugs, and harlequin cabbage bugs.

Watch the garden for the first sign of injury and dust both sides of leaves.

Apply poison bait late in the afternoon for control of cut worms, grasshoppers and adult wingless May beetle, or June bug. Poison bait also will control mole crickets which frequent sandy soils.

A bait made of cryolite, finely chopped carrots or turnips and wheat bran will control the adult weevil.

Apply poison bait late in the afternoon for control of cut worms, grasshoppers and adult wingless May beetle, or June bug. Poison bait also will control mole crickets which frequent sandy soils.

Government purchases now take four-tenths of all pork and seven-tenths of all lard produced in federally inspected packing plants.

Last year's shoe production figures smashed all past records, and came within 7,000,000 pairs of the 500,000,000 mark, with an even greater output scheduled for 1942.

Government purchases now take four-tenths of all pork and seven-tenths of all lard produced in federally inspected packing plants.

Nazis Grab 4½ Billion Yearly

Drain on Occupied Europe Computed in Report for Foreign Policy Group.

WASHINGTON.—Compared with the \$4,500,000,000 that the Nazis now exact annually from occupied Europe, "the \$500,000,000 which Germany was finally asked to pay as reparation under the Young plan is a drop in the bucket," declares a survey of the economic aspects of German military conquests published by the Foreign Policy association.

The survey was prepared by Ernest Hediger, economic analyst of the association's research staff.

Military conquest of virtually the whole continent of Europe in little more than two years, it declares, "has been accompanied not only by wholesale confiscation of everything of immediate use to the German war machine, but also by the application of an entirely new system of invisible and permanent looting."

To Finance Purchases.

"By imposing so-called occupation costs and exacting other financial tribute," it continues, "Germany has been able, while keeping the appearance of legality, to oblige the vanquished nations to finance its purchases, thus succeeding to a very large extent in saddling the costs of its war on them."

"In fact, the material wealth which Nazi Germany has accumulated in the countries occupied during the last three years has already paid for several years of war preparation.

"The renewable contributions extorted from the conquered territories can be conservatively estimated at about 15 billion reichsmarks a year.

"Against a background of total German civilian expenditure of 38 billion reichsmarks, this means that if Germany could not draw on the resources of the occupied countries the populations of the "old Reich" would have to substantially curtail their standard of living or seriously reduce military expenditures.

"The foremost consequence of German exploitation," Mr. Hediger asserts, "is a threatened large-scale inflation in almost all European countries. Under pressure, all central banks of the occupied countries have been compelled to put into circulation large amounts of local paper notes with which the German authorities have deprived, and are still depriving, the people of their belongings in a perfectly 'legal' way."

Notes Drastic Measures.

"An inflation of the spectacular kind, which brought the American dollar to a value of 4,200 billion marks in Germany in November, 1923, has been avoided to this day only because severe rationing and price control of goods of all kinds have been introduced in the occupied countries simultaneously with reparation costs. Without such drastic measures, prices would have soared to astronomic heights."

"As living conditions slowly deteriorate all over Europe," the survey said, "unrest is bound to grow. In spite of German terror methods of government, the people are becoming increasingly outspoken in their resentment of problematic re-payment and are trying to slow down deliveries of foodstuffs and raw materials to Germany."

"The longer the war lasts the less they will believe in the possibility of a German victory. Presently the last worker and the last peasant in occupied Europe will realize that it is useless to produce goods for a market in which he can find almost nothing to buy in exchange for his sweat and tears, and will slow down his work."

"Such passive resistance, the only kind possible so long as the conquerors and their henchmen disposed of all weapons, will call for larger police forces to control the fields and factories and will increase Germany's already great difficulties in ruling the conquered countries of Europe."

Pepper Shaker Collector

Passes Out Some Data

ALVA, OKLA.—How long have salt and pepper shakers been in use? Miss Lillian Dyer, former Alva high school principal, says they date back 150 years.

Miss Dyer is a collector of salt and pepper shakers. She has 325 sets of all sizes and descriptions from eight foreign countries and 42 of the 48 United States.

In her study of shakers, she learned they were used generally shortly after the Revolutionary war. Prior to that, cut glass pieces known as "dips" were used. Today "dips" again are becoming popular, she says.

Colonels Want a Drink?

Must Ask Their Parents!

SAN JUAN, PUERTO RICO.—Teen-age officers of the United States army air force take a lot of kidding from their older comrades-in-arms, as evidenced by the following notice appearing recently over the bar in the Officers' club:

"Positively no alcoholic beverages will be sold to air corps lieutenants and colonels under 21 unless accompanied by their parents."

Pail Saves Life of Boy in Long Fall
NEW YORK.—A neighbor's pail saved the life of four-year-old Robert Reed.

While his mother was asleep, Robert went to the roof of the apartment building. Attempting to cross to a nearby building, he fell five stories to an alley. A pail hanging outside a first floor window broke his fall.

Mazie Quits Job; Bums on Own Now

Famous Bowery Character Plans to Write Book.

NEW YORK.—The bums of the Bowery have lost their platinum blonde shepherdess, Mazie Phillips of the Venice theater, who used to demand (and pay for) baths for her customers before she'd let them in. Mazie is writing a book and she's quit her job because, she says, "I wanna do good."

The evangelical tone of her cigarette-husky voice would break the heart of any of the down-and-outers to whom she once barked: "The world is all smitten up, but I'm not goin' to have you bums losin' up the theater. Here's a quarter. Go take a bath and come back."

But she insists that "all the money I make on the buck is goin' on their poor bums. I ain't had a chance to tell them yet."

And her new spirit hasn't carried her to the point of believing in organized charity—yet.

"I'm not out to knock missions or such," she said, in her apartment under the shadow of the Brooklyn bridge. "But you ain't goin' to get a bum in a mission if there's a gutter to sleep in."

Her book is based on the experience of 30 years of brisk friendship with drifters, and she intends to give her observations on dirt, among other things.

"Dirt's healthy," says Mazie. "That's why them old bums live so long."

Survey Shows Professor Is Not Absent-Minded

NEW ORLEANS.—The old saw about the absent-minded professor is out of date.

Dr. Logan Wilson, Tulane sociology professor who has just completed a study of the typical professor, says he is neither absent-minded, old fashioned nor crochety. He's a relatively alert family man with one or two children.

He is more self-critical than most folks and leans over backwards to avoid conformance to a stereotype. Nor is he particularly inclined toward political or social radicalism, Dr. Wilson found in opposition to another popular belief.

The typical professor has a Ph.D., teaches English and has taught in his present post from 6 to 10 years after teaching first in another institution.

If he engages in research work besides teaching, he not only stands higher in popular esteem but also has a brighter pecuniary future. Few universities, declares Dr. Wilson, have a promotional policy based solely on teaching.

Horse Returns, Pulling Cart Loaded With Grief

COLUMBUS.—The silent art of pulling milk wagons is a hard one to revive.

Horses are not difficult to find, according to George L. Harper, divisional engineer for the Borden Dairy company, but teaching them to work between the shafts in city traffic is a patience-wracking process.

After you teach them the old tricks, it's a problem to find wagons—and if you get the wagons you have to manufacture your own gear.

Horse blankets, harness and nosebags are nearly as hard to obtain as the shoes. Antique shops have been ransacked for old style oil lanterns for the early-morning milk rounds.

The dairy has assembled a strange assortment of odds and ends from junkyards and warehouses. The company is manufacturing wagons by hand, using scrapped auto wheels, hand-made shafts and brakes forged in company shops.

Close-Up Movies of War

Thrill Moscow Audience

MOSCOW.—The first newsreel pictures from the Kharkov front, shown in Moscow, are probably the finest action pictures the war has yet produced. You see the laying of a barrage before the offensive and two Red army anti-tank riflemen waiting tensely for the approach of German tanks. You see one man firing and another loading a tank.

Russian tanks, with the words, "For the Motherland" painted on their turrets, are shown crashing into villages of pulverized cottages and Russian assault troops are seen leaping through window frames to rout the enemy from their fortresses. The whole scene occurs in clouds of dust, flying rubber and splashed earth.

The camera takes you as near to real battle as you will ever get without joining the army and you sense the thrilling tenseness of the Kharkov offensive.

HICKORY

Mr. and Mrs. Curtis Wells, Miss Lillian Wells and Richard and Warren, also Mrs. Emil Hallwas, visited the Kenneth Weaver family at Union Grove Sunday afternoon.

Robert Bonner and friend from Kansville, Wis., visited Robert White Sunday afternoon.

Mort Savage and Clarence Webb of Kenosha spent last week at Eagle River, Wis.

Mr. and Mrs. Earl Webb and Mrs. Minnie Savage from Waukegan visited at the A. T. Savage home Sunday afternoon.

Mr. and Mrs. Harold Wilton of Bristol were supper guests at the Keith Bolton home Sunday.

Mr. and Mrs. Ralph Fields of Antioch visited Mr. and Mrs. E. E. Fields Sunday afternoon.

Mr. and Mrs. Dayton Marrs and family from Harvard were Sunday dinner guests at the Robert McCann home. In the evening the Marrs family visited the George White family.

Mr. and Mrs. Joe White of Harvard were guests at the Fox home over Saturday. They attended the funeral of Nels Nielsen Saturday afternoon.

Mrs. Mike Leahy and daughter, Jeanette from Wadsworth visited the Carney home Friday evening.

Miss Ella Mae Edwards returned home Sunday from a week's vacation with her cousins, Lorraine and Lucile O'Hare, in Waukegan.

Mr. and Mrs. George Olsen of Waukegan visited the Max Irving home Sunday evening.

(Mrs. O. L. Hollenbeck of Milburn and Mrs. Andrew Grant of Edison Park called on Mrs. Will Thompson Saturday afternoon.

Mr. and Mrs. Frank Kennedy of Waukegan visited Mr. and Mrs. Harry Tillotson Saturday afternoon and evening.

Mr. and Mrs. Glenn Sparrow of Zion were callers at the Earl Crawford home Wednesday evening.

Mr. and Mrs. Joseph Pap of Milwaukee were dinner guests at the Carney Bros. home on Sunday, Aug. 9.

Mr. and Mrs. Ward Edwards and son, Richard, from Joliet spent several days of last week at the Bert Edwards home.

George R. Thompson, formerly of Zion but now at Great Lakes, is en-

joying a nine days furlough. He and Mr. and Mrs. Philip Gould and Miss Vivian from Grayslake visited the Will Thompson home Sunday evening.

Sergeant James Neilsen of Camp Shelby, Miss., arrived home Thursday, Aug. 13, on several days furlough.

Miss Edna Pedersen visited Tuesday and Wednesday of this week with her friend, Rosalie Sibley, at Antioch.

Your electric cords are pre-

Electric cords are made mostly of rubber and copper—two materials that are much in demand these days! Check the electric cords in your home, using this guide. Make them last just as long as they were designed to last!

HOW TO MAKE CORDS LAST LONGER

There are three things that commonly cause your cords to wear out:

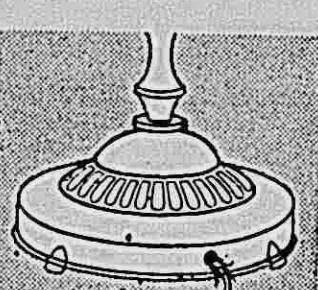

1. FRICTION. When disconnecting, don't yank on the cord—take hold of the plug. Never let a cord become twisted or knotted. When not in use, hang it over two widely separated hooks, so there will be no sharp bend. Never run cords under carpets, or nail them to the wall or floor. Be sure they are away from moving parts of appliances.

2. HEAT. Keep cords away from radiators or steam pipes. Even direct sunlight will shorten the life of the rubber in a cord.

3. MOISTURE. Don't let electric cords get wet. Even rubber-covered extensions will in time absorb water.

WHERE TO LOOK FOR DAMAGED CORDS

Appliance cords wear most quickly at the points where the cord enters the appliance and the plug. Check the cords on your lamp bases, electric fans, irons and other frequently moved appliances.

WHAT TO DO ABOUT DAMAGED CORDS</
